RE: *Connect America Fund, WC Docket No. 10-90; ETC Annual Reports and Certifications, WC Docket No. 14-58; Telecommunications Carriers Eligible to Receive Universal Service Support, WC Docket No. 09-197; Connect America Fund – Alaska Plan, WC Docket No. 16-271; Expanding Broadband Service Through the A-CAM Program, RM-11868*

Dear Ms. Dortch:

On Friday, June 2, 2023, the undersigned on behalf of NTCA-The Rural Broadband Association (“NTCA”) held separate conversations regarding matters in the above-referenced proceedings with: (1) Elizabeth Cuttner, legal advisor to Chairwoman Jessica Rosenworcel; and (2) Ted Burmeister, Jesse Jachman, Katie King, William Layton, Stephen Wang, and Suzanne Yelen from the Wireline Competition Bureau and Eric Ralph from the Office of Economics and Analytics.

During the conversations, NTCA walked through its updated proposals for reform of the Connect America Fund-Broadband Loop Support (“CAF-BLS”) and High-Cost Loop Support (“HCLS”) mechanisms.¹ These updates build upon recommendations long articulated in the record,² but with targeted adjustments to reflect questions raised and the evolution of the record in these proceedings. NTCA asserted that these proposals would: (1) promote the delivery and sustainability of much higher-speed services in wider swaths of rural America; (2) offer a meaningful complement to comparable proposals to update the Alternative Connect America Model; and (3) provide greater predictability and budgetary certainty than the mechanisms currently afford both to the Commission and to support recipients alike. NTCA observed the need to adopt these updates in the near-term to ensure effective coordination with broadband-related efforts underway at other agencies, while also emphasizing the critical necessity of recalibrating the baseline budget for CAF-BLS and HCLS at the current level of demand and enabling the phase-downs of fixed support under the proposal to accrue to the budget for non-electing providers as part of any offering of elections to take fixed support.
