Re: Notice of *Ex Parte* Presentation, WT Docket No. 12-40; RM-11510

Dear Ms. Dortch:

On February 7, 2013, Linda Vandeloop, Jeanine Poltronieri (via telephone), Kimberly King (via telephone) and Robert Vitanza (via telephone) of AT&T, Brian Josef of CTIA – The Wireless Association® (“CTIA”), Jill Canfield of NTCA—The Rural Broadband Association, Carri Bennet of Rural Wireless Association, Peter Connolly of Holland & Knight LLP representing U.S. Cellular, Bill Tortoriello (via telephone) of U.S. Cellular, and Leora Hochstein and Michael Samscock of Verizon Wireless, met with Roger Noel, Division Chief, Mobility Division, Brian Regan, Lloyd Coward, Nina Shafran, Denise Walter, Jeremy Reynolds, Keith Harper, Luis Zambrano Ramos, Moslem Sawez, Scot Stone, and Gabriel Ubienta, all of the Wireless Telecommunications Bureau (“WTB”).

During the meeting, the parties discussed the wireless licensees’ proposal to expeditiously convert the current site-based coverage areas to geographic market areas based on each licensee’s currently-authorized CGSA, as detailed in their November 13, 2013 filing. The parties considered the potential outsourcing of the application process, requiring carriers to work with third party frequency coordinators in preparing and filing with the FCC applications to expand into unserved areas. The parties also weighed the potential costs from frequency coordinator fees and FCC application fees that cellular licensees could face under such an approach. Finally, the parties discussed the concept of a potential “white space only” auction and licensees’ concerns with such an approach.

Pursuant to Section 1.1206 of the Commission's rules, a copy of this letter is being filed via ECFS with your office. Please do not hesitate to contact the undersigned with any questions.

Sincerely,

*/s/ Brian M. Josef*
