Why share information?

Hacker attack every 39 seconds
End of year – roughly 200 billion connected devices
More than 77% of organizations do not have a cyber incident response plan
Most companies take up to 6 months to detect a data breach
300,000 unfilled cybersecurity jobs in U.S.

NTCA efforts

- Cybersecurity Bundle
  - Risk Management Primer
  - Getting Started Guide
  - NIST Framework Evaluation Tool
  - Cyber Incident Response Plan Guide
- Cyberthreat Information Sharing Pilot
  - Partnership with DHS and NIHS
  - 40+ members participated
    - 90% “extremely” useful
    - 95% recommend it to peers
    - 85% security would suffer without it
Program Objectives:

- Aggregate and deliver actionable, relevant information catered to small network operators, without information overload
- Facilitate secure sharing of cyberthreat and mitigation information
- Build a trusted collaborative forum for members to engage
- Serve as industry’s primary source of cyberthreat information
What do you get?

- Daily cyber threat report
- Weekly vulnerability exploitation report
- Incident specific analysis
- Relevant vendor reports
- Secure portal to collect and store shared information
- Secure Member-only Listserv
- Twice a month member-only analytic and collaboration calls
• Why Participate in Information Sharing
• Information Sources
• Examples of discussion topics
• What to share
• How to share
• How information is protected
Details

• One year subscription
  • $2500 promotional rate
  • $3,000 regular rate
  • $5,000 non-member rate
• Up to three individual users
• Users must receive training and sign an agreement
• TIG customers receive up to a 50% premium credit on their TIG cyber policy
